

Cry – Cigarettes after sex

It's making you cry every time
You give your love to me this way
Sayin' you'd wait for me to stay
I know it hurts you
But I need to tell you something
My heart just can't be faithful for long
I swear I'll only make you cry
Maybe I'd change for you someday
But I can't help the way I feel
Wish I was good, wish that I could
Give you my love now
But I need to tell you something
My heart just can't be faithful for long
I swear I'll only make you cry
I need to tell you something
My heart just can't be faithful for long
I swear I'll only make you cry
