Cry - Cigarettes after sex

It's making you cry every time You give your love to me this way Saying you'd wait for me to stay I know it hurts you But I need to tell you something My heart just can't be faithful for long I swear I'll only make you cry Maybe I'd change for you someday But I can't help the way I feel Wish I was good, wish that I could Give you my love now But I need to tell you something My heart just can't be faithful for long I swear I'll only make you cry I need to tell you something My heart just can't be faithful for long I swear I'll only make you cry
