

# Phantom – Closterkeller

I want to feel your love  
I want to feel your pain  
I come out in the night  
And take your breath away  
I hypnotize your mind  
Until you want me here to stay  
I want to feel your love  
I want to feel your pain  
I never talk to you  
I only want to prey  
But if you want to touch me  
No way  
You know no way  
You'll wake up clutching an empty space  
I'll fly away  
I want to feel your love  
I want to feel your pain  
I want to steal your mind  
And tear your heart away  
But when you try to touch me  
No way  
You know no way  
You'll wake up clutching an empty space  
I'll fly away  
I'm going to feel your love  
I'm going to feel your pain  
I'm going to suck your blood  
You know now you won't run away  
You know no way  
You'll wake up clutching an empty space  
I'll fly away  
You know no way  
You'll wake up dead in another dream  
Forever mine will fly away
