

No One – Cold

Well I can't ever really believe
No one was sent to get me
I feel like I'm being erased
No one got left here
Well I'm all alone
No one was sent to get me
Well I'm all alone
No one got left here
But I'm fine
No one got left here
And I'm fine
No one got left here
I can't even breathe when I see
The pictures sent without you
Well I feel like I'm being erased
No one got left here
Well I'm all alone
No one was sent to get me
Well I'm all alone
No one got left here
But I'm fine
No one got left here
And I'm fine
No one got left here
But I'm fine
No one got left here
And I'm fine
No one got left
I'm so sick of this terrible instinct
It's so hard now
Just to find you
I'm so sick of this terrible instinct
It's so hard now
Just to find you
I'm so sick of this terrible instinct
I can only hold you

I'm so sick of this terrible instinct
I can only find you
But I'm fine
No one got left here
And I'm fine
No one got left here
But I'm fine
No one got left here
And I'm fine
No one got left
