

Alexandra Stan & NERVO – Come Into My World

Late luck, where you been?
I travel round and I've seen what I've seen
A dirty love, fit for a queen
And that's the way I like it
Come away, yeah
We might not get a chance, not never again
Don't you wanna fly away? Yeah
It doesn't have to end if you don't know
What I'm saying
Come and take a hit, see if you like it
I'm not gonna say that it won't hurt
But I can tell you now that you're invited
To come into my world
Yeah, come into my world
Take a chance, roll the dice
You got me here and I'm paying the price
I've given in, my hands are tied
And that's the way I like it
Come and take a hit, see if you like it
I'm not gonna say that it won't hurt
But I can tell you now that you're invited
To come into my world
Yeah, come into my world
Baby, I am here, yeah, am excited
Tell 'em till the cops come shut us down
We're burning out the place the way we
Like it
And they can't stop us now, no, they
Can't stop us now
Come away, yeah
We might not get a chance, not never again
Don't you wanna fly away? Yeah
It doesn't have to end if you don't know
What I'm saying
Come and take a hit, see if you like it
I'm not gonna say that it won't hurt

But I can tell you now that you're invited
To come into my world
Yeah, come into my world
