

# Alexandra Stan & NERVO – Come Into My World

Late luck, where you been?  
I travel round and I've seen what I've seen  
A dirty love, fit for a queen  
And that's the way I like it  
Come away, yeah  
We might not get a chance, not never again  
Don't you wanna fly away? Yeah  
It doesn't have to end if you don't know  
What I'm saying  
Come and take a hit, see if you like it  
I'm not gonna say that it won't hurt  
But I can tell you now that you're invited  
To come into my world  
Yeah, come into my world  
Take a chance, roll the dice  
You got me here and I'm paying the price  
I've given in, my hands are tied  
And that's the way I like it  
Come and take a hit, see if you like it  
I'm not gonna say that it won't hurt  
But I can tell you now that you're invited  
To come into my world  
Yeah, come into my world  
Baby, I am here, yeah, am excited  
Tell 'em till the cops come shut us down  
We're burning out the place the way we  
Like it  
And they can't stop us now, no, they  
Can't stop us now  
Come away, yeah  
We might not get a chance, not never again  
Don't you wanna fly away? Yeah  
It doesn't have to end if you don't know  
What I'm saying  
Come and take a hit, see if you like it  
I'm not gonna say that it won't hurt

But I can tell you now that you're invited  
To come into my world  
Yeah, come into my world
