Alexandra Stan & NERVO – Come Into My World

Late luck, where you been? I travel round and I've seen what I've seen A dirty love, fit for a queen And that's the way I like it Come away, yeah We might not get a chance, not never again Don't you wanna fly away? Yeah It doesn't have to end if you don't know What I'm saying Come and take a hit, see if you like it I'm not gonna say that it won't hurt But I can tell you now that you're invited To come into my world Yeah, come into my world Take a chance, roll the dice You got me here and I'm paying the price I've given in, my hands are tied And that's the way I like it Come and take a hit, see if you like it I'm not gonna say that it won't hurt But I can tell you now that you're invited To come into my world Yeah, come into my world Baby, I am here, yeah, am excited Tell 'em till the cops come shut us down We're burning out the place the way we Like it And they can't stop us now, no, they Can't stop us now Come away, yeah We might not get a chance, not never again Don't you wanna fly away? Yeah It doesn't have to end if you don't know What I'm saying Come and take a hit, see if you like it I'm not gonna say that it won't hurt

But I can tell you now that you're invited To come into my world Yeah, come into my world
