

# Firestorm – Conchita Wurst

Love is like a potion  
It's a chemical  
So lead me to the water  
Like an animal  
But you  
You could never hold me  
I could never hold you down  
And I can't get enough

My heart is a firestorm  
And all that I needed was your flame  
And now that you've gone out the door  
Tell me who-oooh-oooh could love you more

My heart is a firestorm  
And all that I needed was your flame  
And now that you've gone out of the door  
Tell me who-oooh-oooh could love you more  
Tell me who could love you, who  
Who could love you  
Who could love you  
Tell me who-oooh-oooh could love you more

Love is like a river  
Let me drift away  
Skin on skin  
Don't wake me up again  
'Cause you  
You could never hold me  
I could never hold you down  
And I can't get enough

My heart is a firestorm  
And all that I needed was your flame  
And now that you've gone out the door  
Tell me who-oooh-oooh could love you more

My heart is a firestorm  
And all that I needed was your flame  
And now that you've gone out the door  
Tell me who-oooh-oooh could love you more  
Tell me who could love you, who  
Who could love you  
Who could love you  
Who could love you

My heart is a firestorm  
And all that I needed was your flame  
And now that you've gone out the door  
Tell me who-oooh-oooh could love you more  
Tell me who could love you  
Who could love you  
Who could love you  
Tell me who-oooh-oooh could love you more  
Tell me who-oooh-oooh could love you more
