Hold Me Closer - Cornelia Jakobs

No need to apologize

'Cause there's nothing to regret

Well, this is not what I wanted

Guess all the good things come to an end

So baby, bye bye

Wish you the best

But most of all I wish

That I could love you less

Well maybe you're right

I'll find someone else

You say it isn't me

But when did that ever help?

Hold me closer

Although you'll leave before the sunrise

Might be bleeding, but don't you mind

I'll be fine

Oh, it kills me

I found the right one at the wrong time

But until the sunrise

Hold thight, hold tight

Maybe it happened too fast

I guess that I understand

You say that you never felt this way

For anyone

And that's why it scares you to death

So baby, bye bye

Know it's for the best

Still I can't see how that

Would ease the pain in my chest

Hold me closer

Although you'll leave before the sunrise

I'll be bleeding, but don't you mind

I'll be fine

Oh, it kills me

I found the right one at the wrong time

But until the sunrise

Can you just hold me tight? I know I have to let go But just give me the night

'Cause tomorrow will hurt

Hurt really bad 'Cause I'm about to lose The best I ever had Hold me closer Although you'll leave before the sunrise I'll be bleeding, but don't you mind I'll be fine Oh, it kills me I found the right one at the wrong time But until the sunrise Can you just hold me tight? I know I have to let go But just give me the night Can't you see that you Found the right one at the wrong time? It was just the wrong time Hold tight, hold tight
