

# For Love – Crematory

For years for this felling of intimacy  
Well-known shower  
Of endearment  
My love for you burns like a fire  
In my deepest self  
Your life is the absolute  
Perfection on earth  
People would kill  
For these feelings and emotions  
My thoughts circle around your life,  
Till eternity  
You are the enrichment of my life  
You are the vitality of my life  
My heart enflames at the sight of you  
I would die if i couldn't feel your love  
Couldn't feel your love  
Couldn't feel your love  
I hear you smile  
Your voice in my dreams  
When i wake day and night  
I would die if i couldn't feel your love  
Couldn't feel your love  
Couldn't feel your love  
I hear you smile  
Your voice in my dreams  
When i wake day and night  
But i would never like to miss  
The feeling  
Once i gave you my heart  
And you treat it like your own  
Flesh and blood  
Emotions say more then  
Thousand words  
With you to the end of the world  
To the end of our life  
Neither death nor satan

Are Capable of separating us  
You are the enrichment of my life  
You are the vitality of my life  
My heart enflames at the sight of you  
I would die if i couldn't feel your love  
Couldn't feel your love  
Couldn't feel your love  
I hear you smile  
Your voice in my dreams  
When i wake day and night  
I would die if i couldn't feel your love  
Couldn't feel your love  
Couldn't feel your love  
I hear you smile  
Your voice in my dreams  
When i wake day and night  
For love  
For love  
You are the enrichment of my life  
You are the vitality of my life  
My heart enflames at the sight of you  
I would die if i couldn't feel your love  
Couldn't feel your love  
Couldn't feel your love  
I hear you smile  
Your voice in my dreams  
When i wake day and night  
I would die if i couldn't feel your love  
Couldn't feel your love  
Couldn't feel your love  
I hear you smile  
Your voice in my dreams  
When i wake day and night  
Your eyes are like a drug  
For love  
For love
