

# Snowin' Under My Skin – Cretu & Thiers

I feel it snowin' under my skin Against  
My window is the blowin' the wind I feel  
It snowin' under my skin That's what it  
Means to love I feel it snowin' under my  
Skin I keep on fallin' into this dream  
I rest my heart and just let you in That's  
What it means to love It's breakin' up my  
Heart Whenever I'm apart from you I feel it  
Snowin' under my skin You keep on sayin'  
We can not win When you confide in me  
Two independent hearts are here Just to  
Begin For I need you, I want you, love you  
An' I'll give you all of my life I feel it  
Snowin' under my skin But all I'm saying  
Don't mean a thing I feel it snowin' under  
My skin That's what it means to love You  
See the child inside the man You keep my  
Life in hands My one and only chance Every  
Word becomes a kiss Reminds me of your face  
It's you I can't replace I feel it snowin'  
Under my skin For I need you, I want you,  
Love you An' I'll give you all of my life  
I feel it snowin' under my skin  
There will be patience over  
Again I feel it snowin' under my skin That's  
What it means to love I feel it snowin'  
Under my skin We're startin' over close to  
The wind Cause there won't be an end To the  
Land we go From here
