

# Waterfall – Cretu & Thiers

Waterfall

You keep on flowin'

Waterfall

You're gonna clean it all

Waterfall

And she was cryin'

And you know what I feel inside

When she came around

She found me silent

And you have seen it

Like the times before

When she got down to my love

Has it been pretended

So you will lead me now

To another start

Waterfall

You keep on goin'

Waterfall

You're comin' from so far

Waterfall

I've paid the prizes

I won't lose you

My mother-nature-call

Waterfall

You keep on flowin'

Waterfall

You're fillin' up the tides

Waterfall

And she was cryin'

Cause when you soothe me

It makes the tides go by

So many times I laid beside you

Now I got a mind to

Make another start

Cause when I'll be achin' for love

Someone's about to find you

And I will feel for you  
In another time  
Waterfall  
You change my feelin'  
Waterfall  
She's comin' back to town  
Waterfall  
She's reachin' to me  
You're gonna try to save me  
Every time I'll come around  
Waterfall  
Flowin' around me  
Waterfall  
Waterfall  
You change my feelin'  
Waterfall  
She's comin' back to town  
Waterfall  
She's reachin' to me  
You're gonna try to save me  
Every time I'll come around
