

# Hello Neighbor Song – DAGames

So you're new to this block  
Welcome to the ride of your life  
Just keep away  
And your life will be pleasant, you'll find  
Some secrets are best let go  
So stop knocking on my darn front door  
Or I'll find you and I'll kick you out of sight

For you see  
As much as I look like I've  
Got stuff left for you  
My house is not a place  
To steal all my clues  
I know you're new here  
But you should think twice before you come near  
I'm smarter than your average neighbor too  
I don't care what you do

Don't step  
Into my house  
Because you can just tip-toe quiet as a mouse  
Don't fool around

Hello!  
I'm your neighbor  
Goodbye  
I'll see you later  
This place was not for you to look and see  
Take it from me  
Hello!  
You're in danger  
Good riddance  
To your behavior  
You may think I'm the devil  
And I wish your lives in peril  
Let me spell this out for you

I'm just your neighbor  
Now, get out!

Where are you now?  
Play hide and seek  
But I'll always find you out  
Now, get out!  
You're a nuisance to my plans  
Now, get out!  
Now, get out!

My house is huge, yeah  
It's 2000 feet high  
This does not give you the right  
To provoke what's behind  
I keep myself away  
So there's no right reason for you to say  
That a sneak peek of my building is defined  
For you see  
I've had more tremors  
Than your soul needs to know  
Your curiosity will make you my foe  
My love was always there  
Until some mad man gave me despair  
Now please get off my lawn or I will show  
Don't make me explode

Don't step  
Into my house  
Because you can just tip-toe quiet as a mouse  
Don't fool around

Hello!  
I'm your neighbor  
Goodbye  
I'll see you later  
This place was not for you to look and see  
Take it from me  
Hello!  
You're in danger

Good riddance  
To your behavior  
You may think I'm the devil  
And I wish your lives in peril  
Let me spell this out for you  
I'm just your neighbor  
Now, get out!

Where are you now?  
Play hide and seek  
But I'll always find you out  
Now, get out!  
You're a nuisance to my plans  
Now, get out!

You think I don't know where you are, my boy?  
You don't think I know?  
My cameras are always watching  
So, you best keep your tushie prepared  
I'm ready to knock some sense into you  
Haven't you heard?  
Be kind to your neighbor  
Read a damn book or something

La la la la  
Keep away! Stay away!  
La la la la  
Take your head out of the clouds  
La la la la  
You're getting closer to the door  
You don't wanna know  
Just go!  
Don't go right down to the basement so low!

So you've found it  
You happy with yourself?  
You nosy little f-  
I told you not to look  
You're scarred  
I told you you wouldn't get far

Get out of my house!

Hello!

I'm your neighbor

Goodbye

I'll see you later

This place was not for you to look and see

Take it from me!

Hello!

You're in danger

Good riddance

To your behavior

You may think I'm the devil

And I wish your lives in peril

Let me spell this out for you

I'm just your neighbor

Now, get out!

Where are you now?

Play hide and seek

But I'll always find you out

Now, get out!

You're a nuisance to my plans

Now, get out!

You're a nuisance to my plans

Get out of my house!
