

# In My Arms – Dead by April

Don't look down, don't look back,  
I am beside you  
Close your eyes, know I'm here  
I know it's hard to let go  
All that defines you  
You feel like you'll never be whole again  
We will find a way to erase the past  
Stay with me, stay with me  
In my arms you'll be fine, I'll never let go  
All you've lost will come again,  
Just stay here with me  
Never look back, never again, it's over  
Everything ends here in my arms  
Don't give in,  
Don't let your memories break you  
Let me take you away from here  
We will find a way to make this last  
Stay with me, stay with me  
In my arms you'll be fine, I'll never let go  
All you've lost will come again,  
Just stay here with me  
Never look back, never again, it's over  
Everything ends here in my arms  
I'll be here forever  
Everything ends here in my arms  
I'll be here forever  
Everything ends in my arms  
I'll be here forever, forever  
Forever  
In my arms you'll be fine,  
I'll never let go  
(In my arms you'll be fine)  
All you've lost will come again,  
Just stay here with me  
(All you've lost will come again)  
Never look back, never again, it's over

(Never look back, never again)  
Everything ends here in my arms
