

# Reflected mind – Deathrow

Standing at the abyss  
I disdain my life for the mistakes I made  
Mad but it's true  
I lost my friends who had trust in me  
Falling in a deep deep hole  
And there's no one around who will help me out  
Hopes getting smaller  
But the trouble remains bigger & bigger  
For all that don't give your life away  
Stay cool and face your problems  
Mirror, mirror on the wall  
Black shadows surround my soul  
Please, please help me now  
And do it fast before  
I die  
Mirror, mirror on the wall  
Black shadows surround my soul  
Should I stay, should I go  
Tell me now or let me  
Fall  
Don't smash the mirror  
If the person you see isn't looking at you  
The ability that you have  
Is a big one so don't let it fall  
My train passed the station  
And I can't find the emergency break  
All that you do, all that you made  
Will some day be paid so stay in tune  
For all that don't give your life away  
Stay cool and face your problems  
Mirror, mirror on the wall  
Black shadows surround my soul  
Please, please help me now  
And do it fast before  
I die  
Mirror, mirror on the wall

Black shadows surround my soul  
Should I stay, should I go  
Tell me now or let me  
Fall
