

One life – Dermot Kennedy

I've seen stars reborn in your eyes
Sky's on fire tonight
One life is never long enough
One life is never long enough
At last call, turn out the lights
I hope I treated you right
One life is never long enough for us
Too many people walk around with hearts
hidin'
Terrified of hurtin', so they stay silent
Don't know what it's worth just to let
A light in
Through the shade
If love had come to me, I wouldn't
Recognise it
Now every time you smile, it's a little
priceless
No story I could weave would have ended
like this
No way
All your troubles, all your pain
Let me struggle, carry that weight
All your devils fall away
You're so easy to love
I've seen stars reborn in your eyes
Sky's on fire tonight
One life is never long enough
One life is never long enough
At last call, turn out the lights
I hope I treated you right
One life is never long enough for us
Every time I look at you, I'm reminded
That nothin' lasts forever, nothin'
Stays timeless
Someday there'll be a kiss and there'll
be goodbyes

We're not exempt
Oh, I could lay beside you a thousand
Lifetimes
Live a thousand more and still pray for
sunrise
Everything before you was a warning of
what it meant
Whoa-oh
All your troubles, all your pain
Let me struggle, carry that weight
All your devils fall away
You're so easy to love
I've seen stars reborn in your eyes
Sky's on fire tonight
One life is never long enough
One life is never long enough
At last call, turn out the lights
I hope I treated you right
One life is never long enough for us
One life is never long enough
(Ooh-oo) one life is never long enough
One life is never long enough
(Ooh-oo) for us
I don't want it to be over
I don't wanna say goodnight
That mornin' in December
For the rest of my life (d-oh)
I don't want it to be over
I don't wanna say goodnight (d-oh)
That mornin' in December
For the rest of my life
I've seen stars reborn in your eyes
Sky's on fire tonight
One life is never long enough
One life is never long enough
At last call, turn out the lights
I hope I treated you right
One life is never long enough for us
One life is never long enough
(Ooh-oo) one life is never long enough

One life is never long enough
(Ooh-ooh) for us
One life is never long enough for us
