

Everybody – DJ Bobo

(JA)

Music is what I'm living for

(TY)

Everybody loves to dance

With another summer romance, uh baby

Everybody likes to move

All the fellas having the groove, uh baby

(TY)

Everybody move your feet

To the rhythm of this beat

Everybody sing this song

All the people having fun

Everybody move your feet

To the rhythm of this beat

Everybody sing this song

All the people having fun

(JA)

Music is what I'm living for

Hit the dancefloor

Like there's ain't no more

Ain't no more time

For taking your chance

Jam digadi jam

To this summer romance

Wave your hands in the air

Everyone and everywhere

Move your body jump around

Check it out with the sound

Everybody, everybody

Get up and sing it loud

This is the sound

That makes you feel proud

(TY)

Everybody hear tonight
We will never start a fight, uh baby
Everybody's feeling proud
If you feel it, say it loud, uh baby

(TY)

Everybody move your feet
To the rhythm of this beat
Everybody sing this song
All the people having fun
Everybody move your feet
To the rhythm of this beat
Everybody sing this song
All the people having fun

(JA)

When the sun goes down
And the night moves on
The time is right to enjoy yourself
And doing whatever you wanna do
I mean everybody

(JA)

Pleasure and pain sometimes the same
I'm not a shame
There's no name for the game
The game that makes my heart still pumpin'
Boom boom my body is jumpin'
Love, everyday and night
The sign for peace is shining bright
Everybody, everybody
Get up and sing it loud
This is the song
That makes you feel proud

(TY)

Everybody move your feet
To the rhythm of this beat
Everybody sing this song

All the people having fun
Everybody move your feet
To the rhythm of this beat
Everybody sing this song
All the people having fun
