

Hold the light – Dominik Dudek

I've seen, seen it coming
Bottom of the sea and running
Out of air in the deep end
Where the light cannot keep me
So I kept on falling
How didn't you hear my calling?
For her name in the ether
Through the dust I could see her
Oh, you
Found me in the blue
So, darling
Hold the light, hold the light,
Hold the light up above
Hold me tight, hold me tight,
Hold me tight in the dark
Hold the light, hold the light,
Hold the light to my heart
I'm afraid of the dark
Now I, now I found it
From the top of my lungs I shout it
Stay away from the water
Stay away from the water
Oh, you
Found me in the blue
So, darling
Hold the light, hold the light,
Hold the light up above
Hold me tight, hold me tight,
Hold me tight in the dark
Hold the light, hold the light,
Hold the light to my heart
I'm afraid of the dark
The god of misery
has her claws around my neck
She never let go
No, she never let go

So I play symphonies to sing the blues away
But I'm scared though
She's the silence in my home
Hold the light, hold the light,
Hold the light up above
Hold me tight, hold me tight
So, darling
Hold the light, hold the light,
Hold the light up above
Hold me tight, hold me tight,
Hold me tight in the dark
Hold the light, hold the light,
Hold the light to my heart
I'm afraid of the dark
I'm afraid of the dark
