

# I've Been Waiting For This Night – Donny Montell

Here we are together, you and I (I)  
Watching lights surround us, feel the night (night)  
I was living in the dark  
Try to heal my broken heart  
Until now

Here we are together you and I (I)  
For a thousand years, through a million tears  
With a hungry heart, every day apart  
I've been waiting for this night,  
I've been waiting for this night  
When I see your smile and your beautiful eyes  
I get lost in time, now I know that I  
I've been waiting for this night,  
I've been waiting for this night  
If only I could stay here by your side (side)  
To promise you forever here tonight (night)  
There is nothing I can't do  
That can take my heart from you  
Always yours

If only I could stay here by your side (side)  
For a thousand years, through a million tears  
With a hungry heart, every day apart  
I've been waiting for this night,  
I've been waiting for this night  
When I see your smile and your beautiful eyes  
I get lost in time, now I know that I  
I've been waiting for this night,  
I've been waiting for this night  
For a thousand years, through a million tears  
With a hungry heart, every day apart  
I've been waiting for this night,  
I've been waiting for this night  
When I see your smile and your beautiful eyes  
I get lost in time, now I know that I  
I've been waiting for this night,

I've been waiting for this night  
Here we are together you and I
