

# That's the way I feel about you – Edyta Górniak

There are roads that can take you to places  
that you've never been  
There are people - when you meet them it's  
Like they have lived inside your skin  
There are souls you connect with so strong  
A bond that's so deep and so true  
And that's the way I feel about you  
There are times  
Like a magnet you're drawn  
Into somebody's life  
You' don't know what you're doing  
Or why you are there  
But you know it's right  
There's a sense  
That the piece that was missing  
Has suddenly come into view  
That's the way I feel about you  
That's the way I feel about you  
I believe in this world there is nothing  
That happens by chance, no  
There's a reason that at just  
This particular moment you came  
Into my hands  
Like a gift that you never expected  
But you'll treasure your whole life trough  
That's the way I feel about you  
That's the way I feel about you  
Like a gift that you never expected  
But you'll treasure your whole life trough  
That's the way I feel about,  
That's the way I feel about  
That's the way I feel about you
