

# Only You – Euro Disco

Underneath the silver skies  
I can see forever in your eyes  
Every heartbeat says your name  
Nothing else will feel the same  
Only you tonight  
In the glow we shine  
Only you tonight  
Make this world feel mine  
Hold me close and never go  
Love's the only thing we know  
Every step is meant for you  
Every dream it brings me through  
Through the night until the day  
Love will guide our every way  
Only you tonight  
In the glow we shine  
Only you tonight  
Make this world feel mine  
Hold me close and never go  
Love's the only thing we know  
Only you tonight  
In the glow we shine  
Only you tonight  
Make this world feel mine  
Hold me close and never go  
Love's the only thing we know
