

Who is that girl – Eurythmics

Who is that girl
The language of love
Slips from my lover's tongue
Cooler than ice cream
And warmer than the sun
Dumb hearts get broken
Just like china cups
The language of love
Has left me broken on the rocks
But there's just one thing
(Just one thing)
But there's just one thing
And I really wanna know
Who is that girl
Running around with you?
Tell me
Who is that girl
Running around with you?
Tell me
Who is that girl
Running around with you
Tell me
Who is that girl?
The language of love
Has left me stony grey
Tongue tied and twisted
At the price I've had to pay
Your careless notion
Have silenced these emotions
Look at all the foolishness
Your lover's talk has done
Who's that girl
Running around with you?
Tell me
Who's that girl running around with you?
Tell me, who is that girl?

But there's just one thing

Ooh

Tell me

Tell me

Who's that girl

Running around with you?

Tell me

Who's that girl running around with you?

Tell me

Who's that girl running around with you?

Tell me, who is that girl

Running around with you?

Tell me

Tell me

Tell me

Tell me
