

# Far From Heaven – Evanescence

Give me a reason  
Make me whole again  
Moonshine becomes scars  
But I'm cracked instead  
Can't risk believing  
That I would stand a chance  
Frozen in the doorway  
Don't wanna leave the past  
One more night  
What I wouldn't give to be with you  
For one more night  
What if I can't see your light anymore?  
'Cause I've spent too long in the dark  
And I'm on my knees  
Without shame begging to believe, but I feel  
So far from heaven  
Wake up to a new day  
Break my heart again  
Dreaming makes for sweet escape  
But I can't forget  
I'm back at the edge now  
I never needed you more  
Staring down the emptiness that I can't ignore  
All my life  
Didn't wanna dream I could lose you  
But you just left  
What if I can't see your light anymore?  
'Cause I've spent too long in the dark  
And I'm on my knees  
Without shame begging to believe, but I feel  
So far from heaven  
Is anyone out there? Did you give up on us?  
Break this silence, I'm crushed under love  
I don't wanna lockdown, but we've lost so much  
Will you forgive me if I  
Can't see your light anymore

'Cause I've spent too long in the dark  
And I'm on my knees  
Without shame begging to believe, but I feel  
So far from heaven
