

Overdose – EXO

Pulled you into my arms, come to me now
There's no turning back there's no way out
It is you, I'm addicted to your love
So bad, no one can stop you

His love, his love
The only thing I wanna,
The only love I wanna feel tonight
Babe, your love's my fantasy
I'm drunk on your love so treat me

Oh, he wants me (got it)
Oh, he's got me (hurtin')
Oh, he hurts me
What else can be better? give me some more

Someone call the doctor, someone tell me what to do
Love's an addiction, an overdose
I keep on falling baby, it is harder to control
Days passes by I still want some more, eh oh
Too much of ya, your love is an overdose
Too much of ya, your love is an overdose

Seeing you makes my suffering stronger
Give me more of your love babe, I wanna
You leave me breathless I don't know what to say
Hey, you are mine, I want you

His love, his love
Like poison runnin' through me
I can't escape this painful destiny
You control the whole of me, yeah
My blood gets hotter I'm infected

Oh, he wants me (got it)
Oh, he's got me (hurtin')

Oh, he hurts me
Can't get you out of my head, tell me why?

Someone call the doctor, someone tell me what to do
Love's an addiction, an overdose
I keep on falling baby, it is harder to control
Days passes by I still want some more, eh oh
Too much of ya, your love is an overdose
Too much of ya, your love is an overdose

What are you asking of me, why
Do you tell me I have changed?
Everything you do breaks my heart in two
My world is yours in every way
No, I can't stop you, I am lost without you
In this moment, now, you're in my heart

E X O

Yeah, I taste and drink your love, my addiction, uh
Can't stop this feeling now, give me what
I want I didn't get enough
My heart keeps shaking, every bit of
You sends shivers through my body
I'm greedy for this drug, keep going, I can't stop no

Hey doctor, I need a diagnose, tell me now
Can't go on like this but still I need you,
Stay here right by my side
If you leave me life will eat me without you
I won't survive
My addiction is you, and I need nothing more to live, no

Someone call the doctor, I need you here every day
I can't resist it, I can't let go
You are my one addiction and I'm waiting for some more
Give me your love my rush in this world, eh oh
Too much of ya, your love is an overdose
Too much of ya, your love is an overdose
