

# Cosmic Gate – fall into you

What is life  
Without you in it  
I wish I was that strong  
Without a reason to go on  
How does this work  
If you're not here with me  
You say we don't belong  
And you're better off alone  
But you got me running, running,  
Running so wild  
Looking for a way to make it down that  
Winding road  
Cause I could fall into you  
I'm gonna fall into you  
In the still of the night  
Take the thorn from my side  
I'm gonna fall into you  
Just fall into light  
Under the midnight sky  
I'm gonna close my eyes  
And just fall into you  
And just fall into you  
And just fall into you  
Cause I could fall into you  
I'm gonna fall into you  
In the still of the night  
Take the thorn from my side  
I'm gonna fall into you  
Just fall into light  
Under the midnight sky  
I'm gonna close my eyes  
And just fall into you
