

# Savannah – FAULHABER

In your deep blue eyes  
I see clear blue skies  
When i think of you  
I wanna go back  
Under purple light  
We stayed up all night  
And we promised then  
That we'd hold on to every word that we said  
Replay every moment inside of our head

Savannah - I met you in the Summer  
I love your endless colours  
I'll always be your lover  
Together we got faded  
Still high on love - I taste it  
Got in the pool butt naked  
Where magic was created  
I met you in the Summer  
I met you in the Summer

When the heat is on  
And we're up till dawn  
And you're by my side  
To kill the lonely nights  
Just skin on skin  
Under thousands stars  
And we promise then  
That we'd hold on to every word that we said  
Replay every moment inside of our head

Savannah - I met you in the Summer  
I love your endless colours  
I'll always be your lover  
Together we got faded  
Still high on love - I taste it  
Got in the pool butt naked

Where magic was created  
I met you in the Summer  
I met you in the Summer  
I met you in the Summer

(colours)  
(faded)  
(butt naked)

Savannah - I met you in the Summer  
I love your endless colours  
I'll always be your lover  
Together we got faded  
Still high on love - I taste it  
Got in the pool butt naked  
Where magic was created  
I met you in the Summer  
I met you in the Summer
