

# Only a Lifetime – Finneas

How do you know  
If you've done everything right?  
Is it the love you have at hand  
Or the cash you kiss at night?  
How do you know  
If it was worth it in the end?  
Did every second really count  
Or were there some you shouldn't spend  
On anything but anyone you love?  
Was this the life that you were dreaming of?  
A movie night, a yellow light  
You're slowing down and days are adding up  
So don't waste the time you have  
Waiting for time to pass  
It's only a lifetime  
That's only a while  
It's not worth the anger you felt as a child  
Don't waste the time you have  
Waiting for time to pass  
It's only a lifetime  
That's not long enough  
You're not gonna like it without any love  
So don't waste it  
I'm unimpressed  
By the people preaching pain  
For the sake of some small gain  
In the sake of someone's name  
I'm unprepared  
For my loved ones to be gone  
Call 'em way too often now  
Worry way too much about mom  
Don't waste the time you have  
Waiting for time to pass  
It's only a lifetime  
That's only a while  
It's not worth the anger you felt as a child

Don't waste the time you have  
Waiting for time to pass  
It's only a lifetime  
That's not long enough  
You're not gonna like it without any love  
So don't waste it  
It's family and friends, and that's the truth  
The fountain doesn't give you back your youth  
It's staying up too late at night  
And laughing under kitchen light So hard  
You start to cry  
Don't waste the time you have  
Waiting for time to pass  
It's only a lifetime  
That's not long enough  
You're not gonna like it without any love  
So don't waste it
