

Carol – FORÊT DE VIN

Sometimes it's bad, sometimes it's good
You broke our love like I knew you would
But there was something 'bout your smile
I had to be there by your side
Endless nights with candlelights
You're like the needle in my arms
But there was something 'bout your smile
And I can barely stay alive
'Cause it's a hard life for us
Nothing I can do about it
And you burned all the bridges to the ground
You left me in a snowstorm where I'm dying,
Carol
You're my drug, my gasoline
Wrapped in a world of make-believe
'Cause there was something 'bout your smile
I had to be there by your side
(Ooh) We're in a circle of emotion
(Ooh) There's no running back, we can't leave
This place
Oh, and I can barely stay alive
'Cause it's a hard life for us
Nothing I can do about it
And you burned all the bridges to the ground
You left me in a snowstorm where I'm dying
'Cause it's a hard life, no lies
What can I do about it?
Will you lead the way? I'm all alone
So save me from this snowstorm, Carol
We can never look back
We're in the eye of the storm
So where did we go wrong?
Ooh, Carol
What can I do about it?
Will you lead the way? I'm all alone
Save me from the snowstorm, yeah

'Cause it's a hard life for us
Nothing I can do about it
(nothing I can do about it)
And you burned all the bridges to the ground
You left me in a snowstorm where I'm dying
'Cause it's a hard life, no lies
What can I do about it?
(What can I do about it?)
Will you lead the way? I'm all alone
So save me from this snowstorm, Carol
