

It's Christmas – FORÊT DE VIN

I wake up on Christmas morning
See the snow is falling down
Another dream about you, baby
That you were by my side
I don't want a lot for Christmas
Don't care about the presents
I just want you right here
In my arms
Don't let them talk about it, tried it before
Don't let them ring in
As you walk through that door
'Cause baby, for how long
How long will you keep me waiting?
Because it's Christmas time
I don't wanna be alone
Baby, for how long
How long will you keep denying?
You know I'll always love you
And I want you to be mine
It's Christmas
I don't wanna keep on waiting
Underneath the mistletoe
My love for you is stronger
Than it's ever been before
Don't let them talk about it, tried it before
Don't let them ring in
As you walk through that door
'Cause baby, for how long
How long will you keep me waiting?
'Cause it's Christmas time
I don't wanna be alone
Baby, for how long
How long will you keep denying?
You know I'll always love you
And I want you to be mine
It's Christmas

When I try to call you on the phone
I know you're sitting there alone
Please, pick up, Carol
There's no Christmas without you
'Cause baby, for how long
How long will you keep me waiting?
Because it's Christmas time
I don't wanna be alone
Baby, for how long
How long will you keep denying?
You know I'll always love you
And I want you to be mine
It's Christmas
I don't want a lot for Christmas
Don't care about the presents
I just want you right here
In my arms
Merry Christmas

IT'S CHRISTMAS
