

Like All My Friends – Francis Karel

Turn the music up
'Cause I don't wanna think
I don't wanna think about the room I'm in
If my eyes stay shut
Then I don't have to see
I don't have to see how everybody's
Got someone they're taking home
I don't wanna sound so cynical, but I
Wanna fall in love like all my friends
God, they look so happy
And I know I can be
I don't mind my empty bed
But sometimes I get lonely
Want someone to show me how to
Fix a fight, kiss good night, hold me tight
I wanna fall in love like all my friends
Fall in love like all my friends
Not a jealous guy
But I got feeling too
I've got myself a missing puzzle piece
We all wanna find
Someone in our youth
Somebody who can make us feel like
Everybody's got someone
I'm not usually an optimist but I
Wanna fall in love like all my friends
God, they look so happy
And I know I can be
I don't mind my empty bed
But sometimes I get lonely
Want someone to show me how to
Fix a fight, kiss good night, hold me tight
I wanna fall in love like all my friends
Fall in love like all my friends
Ooh, ooh, fall in love like all my friends
Ooh, ooh, fall in love like all my friends

Wanna fall in love like all my friends, oh
And I don't mind my empty bed
But sometimes I get lonely
Want someone to show me how to
Fix a fight, kiss good night, hold me tight
I wanna fall in love like all my friends
Fall in love like all my friends
