Let me go – Gary Barlow

A room full of sadness
A broken heart

And only me to blame
For every single part

No Science or Religion
Could make this whole

To be loved, but never loved
To have, but never hold

It's a life alone, and a desperate need
To be held to be loved so

This is gonna take a bit of getting used to,
But i know what's right for you

Fly high and let me go
That sky will save your soul

When you pass by then you'll know
That this gonna take a bit of getting used to
but i know what's right for you

Let me go

A head full of madness
And no where safe

When tears aren't big enough, and love turns into hate
It's a life alone, and a desperate need

To be held to be loved so
That this gonna take a bit of getting used to
But i know what's right

For you

Fly high and let me go
That sky will save your soul

When you pass by then you'll know
That this gonna take a bit of getting used to
But i know what's right for you

So let me go life will get better
Find the love i never gave ya

I know you lie there waiting all night long,
So find where you belong

Fly high and let me go
That sky will save your soul

Fly high and let me go
That sky will save your soul

But this gonna take a bit of getting used to
But i know what's right for you

Let me go
