

# Black Lily – Gazpacho

Can you hear me  
And know your own  
Swim to me  
This island

All the endings  
That broke on rocks were  
Lost to tides again

Hear the bells  
In deep hollow dungeons  
In deep green seas  
The pressure is from within

Struck down in the middle of  
A little life  
Star spangled by the wayside  
As the trains roll by

Phantom pains and morphine  
Isn't that enough?  
Leaving cannot heal you  
First try it with a kiss

All your troubles, small battles  
So tired an your icecap  
Black lily I just want to make you  
Laugh again

In that deep hollow dungeon  
A glorious sleepwalk  
A pilgrim of valium  
It's cold on this cloud

Struck down in the middle of  
A little life

Star spangled by the wayside  
As the trains roll by  
Mercy, what can you do?  
Try to be a saint?  
Leaving cannot heal you  
First try it with a kiss
