Hydrochloride - Ghostemane

You've taken all my pain away

And gave me shiny chains

You've taken all my doubts away

Replaced it with this shame

You took away all my problems

Yeah, you bet

And then you gave me a brand new set

And now I'm not afraid

I don't love you anymore

I thought I would ride the high so high until

I can't be reached

By gravity

You won't catch me

Won't catch me

Everyone except me

But I soon realized

The rules apply to me, I'm sorely mistaken

Aching now

Takin' out

All my rage

And now I'm not afraid

I don't love you anymore
