

# Moonlight – Grace VanderWaal

She always has a smile  
From morning to the night  
The perfect poster child  
That was once in my life  
A doll made out of glass  
All her friends think that she's great  
But I can see through it all  
And she's about to break  
Remember last year when you told me  
To always stay here and never leave me  
The light from your eyes made it feel like  
We were dancing in the moonlight  
Remember last year when you told me  
That these will be lifelong stories  
The light from your eyes made it feel like  
We, we're dancing in the moonlight  
You were dancing in the moonlight  
And I, I, I was dancing in the moonlight  
Now she lost her way  
And she forgets to smile  
Never gets a break  
From this life in denial  
A doll made out of glass  
All her friends think that she's great  
But I can see through it all  
And she's about to break, oh!  
Remember last year when you told me  
To always stay here and never leave me  
The light from your eyes made it feel like  
We-e-e, we're dancing in the moonlight  
Remember last year when you told me  
That these will be lifelong stories  
The light from your eyes made it feel like  
We-e-e, we're dancing in the moonlight  
You were dancing in the moonlight  
And I was dancing in the moonlight

I, I, I, miss those me-mo-ries

We used to share

Just you and me

I remember last year when I told you

I would always stay here and never leave you

I told you the light in your eyes made it look like

We, we're dancing In the moonlight

Remember last year when you told me

To always stay here and never leave me

The light from your eyes made it feel like

We, we're dancing In the moonlight

The light from your eyes made it feel like

Dancing In the moonligh
