

Saturation – Grieves

Check, last time I put my face on the screen
I was posted up
Ocean front few chasing dreams
Now I'm locked down
Sheltered in place and can't do shit
Last time they wanted me to rap
Lets do this he called
But the flows hotter than
Coals when their heat up
The kick ride hat and the a snare
They get beat up
Chicago boy living in grit city for keeps now
Covered in harmonic distortion
Just like the Neve sound
Shit Who that hell dare made you boss?
My advice stay your lane
Shouts to you God
Might as well stand your crib, click coupons
Spend a little bit of your savings
On trying to move on
Keep it, 2,500 On that AP
I got the oxford ready if they inflate me
Fans in their air crank
That M double agent
I stay laced up with the blessings of UAD
Yeah, crazy
The winds much colder on the top floor
But things keep complicating
They're keep pounding on a locked door
Knock, knock, knock
They mistake payments
It's all glad to own a ground floor
But don't get me mistaken
I came straight from the basement
Don't make this complicated
Yeah, Threshold set, the odds wanna limit me

Teletronix hook to my finals
Create the synergy
Loked in Homeboy rap? Well I'm not him
Built it from ground floor up
You just wallked-in
Focus I'm tryna buy a crib by the ocean
So I ain't gotta listen to
Anymore your bullshhit,
Dangerous collection of skills create motion
Taught me how to sharpen my clarity
When the lows hit
Now they want to get it glimpse
At how my brain works
Eight range of classic
Just busting out in framework
Stay hurt
Cause I ain't got time for the drama
You acting like we ran a few strain
On your mama
Relax kid
You ain't gotta worry over that shit
Let the tape back on when
The turns go galactic
My preferred ghost sound saturday
You had em back shit
Swingin by the ankles from the raftles
Yeah, That's it
Winds much colder on the top floor
But things keep complicating
They keep pounding on a locked floor
Knock, knock, knock they mistake payments
They talk louder when the ground floor
Don't get me mistaken
I came straight from displacement
Don't make this complicated
Covered with harmonic distortion
Just like the Neve sound
Neve sound, neve sound
Sound
