

## Share the joy – Gromee

I've got these butterflies my body keeps on holding  
They're going wild cause I'm excited everyday  
And I'm loving every feeling  
That life brings cause I'm living  
So free, yeah, I feel free

And if I'm dreaming yeah just please don't ever wake me  
Cause I'm living off the love given to me  
Whether from my mother  
My sisters or my brothers  
I feel free, yeah, so free

If you ever need somebody, I got you  
Although I may be young, I know what to do  
Not everyday's the greatest, it's true  
But if you put your mind to it, you'll get through

I just wanna share, share the joy  
Share the joy, share the joy  
I just wanna share, share the joy  
Share the joy, share the joy

Just wanna share, share the joy  
Share the joy, share the joy!

Let's catch these good times in a bottle  
And just save them  
In our minds, to take them out on rainy days  
It can't always be perfect  
But this time make it worth it  
For me, yeah, for me

And if I'm dreaming yeah I guess you could just wake me  
Cause all my dreams I think that they are coming true  
Cause it's all of us together  
I cross my heart forever

Trust me, yeah, you'll see

If you ever need somebody I got you  
Although I may be young I know what to do  
Not everyday's the greatest, it's true  
But if you put your mind to it, you'll get through

If you ever need somebody I got you  
Although I may be young I know what to do  
Not everyday's the greatest, it's true  
But if you put your mind to it, you'll get through

Just wanna share, share the joy  
Share the joy, share the joy  
Just wanna share, share the joy  
Share the joy, share the joy!

Just wanna share, share the joy  
Share the joy, share the joy
