

The End – Groove Coverage

My home is in motion as darkness unfolds,
The air overloaded, the sky stands in gold
But you in a way, you left me to stay,
We see us in heaven, I'm counting the days
At the end of time, at the end of us,
At the end of everything we had,
Only faith helps you, only grace can do,
Only you can take the pain
Cause the end of peace is the end of life,
And the end of any happiness,
Only love helps you, only trust can do,
Only you can take the pain off me
[Instrumental]

When thunder is calling I feel so alive,
The very first morning, can you see the light?
But you closed the door to what I adored,
We see us in heaven, I'm counting no more
At the end of time, at the end of us,
At the end of everything we had,
Only faith helps you, only grace can do,
Only you can take the pain
Cause the end of peace is the end of life,
And the end of any happiness,
Only love helps you, only trust can do,
Only you can take the pain off me
