

Copycat – GUMI

Say, "Hello, who are you?"
And we'll start from scratch again
"Gotta go, talk to you soon"
Day by day, I'm fading away
We get along just fine
I say everything you like to hear
It's funny how much I
Feel like I'm looking in a mirror
I can't remember
Who I am
Everything's a blur
Take me over
I'll become what you like
This is what you've wanted,
right?
Sacrifice all I know
I will teach myself to let go
(WHOA, WHOA)
Copy that, copycat
(WHOA, WHOA)
Copy that, copycat
(-----)
Say, "Hello, what's up with you?"
I'm starting to talk like you do
Here we go
I'll be gone soon
Day by day, everything has changed
We've grown apart this time
I can't figure out the reason why
It's funny how much I'd
Kinda like to see you cry
I can't remember
Who I am
Everything's a blur
Take me over
I'll become what you like
