

# We Ar – HAEVN

Walking through the dark night  
Calling out a name  
I'm waiting for an answer  
How did we end up here?  
Try to find a shoreline  
No ground beneath my feet  
I may shut the mind down  
And try to understand  
Cold, we are, we are, we are  
And cold, we are, we are, we are  
Baby we're lost  
Come home with me  
Baby we're lost  
Come home  
Once we were like sunlight  
With nothing in between  
Now we share a distance  
Our shadows at our feet  
I'm blinded by the silence  
No horizon that I see  
Feel the cold of raindrops  
Salted by my tears  
Cold, we are, we are, we are  
And cold, we are, we are, we are  
Baby we're lost  
Come home with me  
Baby we're lost  
Come home  
And we walk until  
A new day will break  
'Til the hurt wears off  
And the storm will fade  
We will talk again  
About the difference  
And we'll both will see  
That our love has grown

Baby we're lost  
Come home with me  
Baby we're lost  
Come home  
Baby we're lost  
Come home  
With me  
And baby we're lost  
Come home  
With me
