

Keep Driving – Harry Styles

Black and white film
Camera, yellow sunglasses
Ashtray, swimming pool
Hot wax, jump off the roof
A small concern with how the engine sounds
We held darkness in withheld clouds
I would ask, "Should we just keep driving?"
Maple syrup
Coffee, pancakes for two
Hash brown, egg yolk
I will always love you
A small concern with how the engine sounds
We held darkness in withheld clouds
I would ask, "Should we just keep driving?"
Should we just keep driving?
Passports and footwells
Kiss her and don't tell's
Wine glass, puff pass
Tea with cyborgs
Raya, America
Science and edibles
Life has gone viral in the bathroom
Cocaine, side boob
Choke her with a sea view
Toothache, bad move
Just act normal
Moka pot on Monday
It's all good, hey, you
Should we just keep driving?
Should we just keep driving?
Should we just keep driving?
