

# Sunflower, Vol.6 – Harry Styles

Sunflower

Sunflower

My eyes

Want you more than a melody

Let me inside

Wish I could get to know you

Sunflowers

Sometimes

Keep it sweet in your memory

I was just tongue-tied

And I don't wanna make you feel bad

But I've been trying hard not to talk to you

My sunflower

I couldn't want you any more

Kiss in the kitchen like it's a dance floor

I couldn't want you any more tonight

Wondering headshake

Tired eyes are the death of me

Mouth full of toothpaste

Before I got to know you

I've got your face

Hung up high in the gallery

Out of this shade (sunflower, sunflower)

(Przerwa)

Your flowers just died

Plant new seeds in the melody

Let me inside, I wanna get to know you

I don't wanna make you feel bad

But I've been trying hard not to act a fool

My sunflower

I couldn't want you any more  
Kiss in the kitchen like it's a dance floor  
I couldn't want you any more tonight  
I couldn't want you any more  
Kids in the kitchen listen to dancehall  
I couldn't want you any more tonight

Sunflower

My eyes

Want you more than a melody

Let me inside

Wish I could get to know you

Sunflowers just died

Keep it sweet in your memory

I'm still tongue-tied

Sunflower, sunflower

Sunflower, sunflower

Sunflower, sunflower

(Przerwa)
