

# Don't You Forget – Hazbin Hotel 2

Sounds like you really could do  
With a little reminder of  
Who you're talking to  
An honest woman  
Always there to lend an ear  
I dealt with you fairly,  
Been patient, it's true  
But remember, my dear  
You're in my zoo  
Don't you forget  
You are my pet  
I say when to sit and stay  
Roll over, or go fetch  
Don't you forget  
There's no way out  
You're a debtor 'til the day you  
Settle your account  
I've served you faithfully for an age  
Obeyed demands, contained my rage  
Went off the air for years on your behalf  
I know, and you're so kind!  
And since you made me disappear  
My name inspires much less fear  
The least that you can do is fix my staff  
In due time  
Sing along, dear, you know the words!  
Don't you forget  
I won't forget  
You are my pet  
Yours since we met  
I say when to sit and stay  
Play ball, or just play dead  
Don't you forget  
I'm in your net  
The coop can't be flown  
At least, not yet

The moves you make are mine and mine alone  
Looks like you'll (I'll) have  
To do this on your (my) own  
Fine
