

Hear my hope – Hazbin Hotel 2

Hear my hope
Let it echo
In every soul that needs
Something to believe
Take my hand
Never let go
Even one soft sound
Can shake the hardest ground
And even if we die striving
To find the peace we lost
At least we'll know we tried,
Didn't stand by with fingers crossed
Raise your voice,
Light the fire
'Til our hopes and fears
Reach a billion ears
Lend your breath,
Join the choir
Let the music span o'er this broken land
And many years from now,
If any live to hear this song
A story about how all Hell
Joined hands and sang along
It begins with just one note
A crescendo 'til the end,
No matter what it takes to stay afloat
Hear my hope
Hahahaha
Hahahaha
What are you doing here?
I'm here to finish what I started
Let's get Emily and go
No, how can you be so cold-hearted
Everybody dies if we don't do this
And so be it, don't resist
Or what?

I'll take your other eye
Just try
Lute, this isn't what we talked about
Abel, please
We don't have time for this
Shut your mouth, abomination
Abel, you can stop this
Abel, please
Enough!
Can't breathe,
Vision's gettin' blurry now
Nosebleed, never been so worried
How'm I s'posed to handle the pressure?
It would've been better
If I were anybody else
Dear dad,
Tell me what you would've done
Too bad
That I'm not your braver son
Why'd I have to be picked to lead?
I wish that I could be anybody else
I'm supposed to do something
Am I, am I supposed to do something?
Do I run, do I dare,
Can I grant my own prayer?
Get a grip, grow a pair
Let me stop you right there
There's no cause for attack
Swallow your pride,
Cast your bloodlust aside
Bitch, you better fall back
I can't hold it much longer
We got you
We need to be stronger
We've done all we can, there's no way
No way
There's no one left to save the day
It's okay
You would risk your life
For souls that Heaven sought to kill?

We can not just stand by
It's time to match your strength of will
Hear my hope
Let it echo
In every soul that needs
Something to believe
Take my hand
Never let go
Even one soft sound
Can shake the hardest ground
Why don't you help them,
You double-dealing manipulator?
What's in it for me?
I don't work for free
You want help,
Well, you know the fee
I will not reward a snake like you
You'll watch them die unless you do
Liar, you wouldn't dare
Quid pro quo, it's only fair
You really are a demon, pet
You knew my game the day we met
Hear my hope
Let it thunder
Across this prideful ring
'Til every last soul sings
Take my hand
Feel the wonder
In perfect harmony
We'll change our destiny
And many years from now
If any live to hear this song
Stop it right now
The story about how we learned,
Together, we are strong
It began with just one note
A crescendo 'til the end,
No matter what it takes
Hear my hope
