

# Don't you forget – Hazbin Hotel

R: Sounds Like you,  
Really could do  
With a little reminder,  
Of who you talking to,  
An Honest woman,  
Always there to lend an ear,  
I dealt with your,  
Fairly impatient,  
Its true

But remember,  
My dear  
You're in my zoo!  
Don't you forget~  
You are my pet,  
I say when to sit and stay,  
Roll over or go fetch!  
Don't you forget  
There's no way out!  
You're a dud untill to day you,  
Settle your account

A: I served you faithfully for an age  
Obeyed demands containd my rage  
When off the air for years on your behalf

R: I know, and you're so kind!

A: And since you made me disapear  
My name inspires much less fear  
The least that you can do is fix my staff!

R: And do time,  
Sing along dear!  
You know the words!  
Don't you forget!

A: I won't forget,

R: You are my pet,

A: Yours since we met

Both: I say when to sit and stay  
Play ball or just play dead

R: Don't you forget

A: I'm in your net

R: Who(?)can't be found!

A: At least not yet~

R: The move you make are mine and mine alone
