

# It's starts with sorry. – Hazbin Hotel

It starts with sorry  
That's your foot in the door,  
One simple sorry  
Spoken straight from your core  
The path to forgiveness is a  
Twisting trail of hearts  
But sorry is where it starts  
Who could forgive a dirtbag like me?  
I don't deserve your amnesty  
Can't we just kill him?  
Shoot him and spill his blood?  
That's an option you could choose  
Works for us  
But who hasn't been in his shoes?  
It starts with sorry  
(sorry)  
Dig down deeper and say one sincere sorry  
I'm so sorry  
And your journey's underway  
It'll take time to cover  
Your vast multitude of sins  
But sorry is where it begins  
It starts with sorry
