Susanne – Hubert KaH

I'm writing you a song But you're so far away A simple melody To carry what I say Susanne, It's just to let you know I think of you Oh, I love you, Susanne Writing it down Making it clear And time and distance separate But they can never interfere Oh, Susanne And when it's through This song's for you A picture of your face Is dancing in the air And as I write the words I feel so solitary Susanne It's just to let you know I think fo you Oh, I love you, Susanne Writing it down Making it clear And time and distance separate But they can never interfere Oh, Susanne Now it's through This song's for you
