

# Black Wedding feat. Rob Halford – In This Moment

Priest are you there  
Can you hear my voice  
Do you hear my prayers  
Are you out there  
Forgive me priest for I have sinned  
I know not what I do  
Mother I am here  
I can hear your song  
I can feel your fear  
He's done you wrong  
Temptation fed his own desires  
In the ring of fire  
In my ring of fire tonight  
I would have loved you for a thousand years  
I would have died for you  
I would have sacrificed it all my dear  
I would have bled for you  
'Til death do us part  
You were unholy right from the start  
Its a nice night for a black wedding  
Its a nice night for a black wedding  
I heard your cry and I just knew  
I never meant to forsake you  
Mother there's no reason to repent  
You know not what you do  
I heard the bells and I just knew  
An angel once now a ghost of you  
Deliver me from my own desires  
From my ring of fire  
From my ring of fire  
Tonight!  
I would have loved you for a thousand years  
I would have died for you  
I would have sacrificed it all my dear  
I would have bled for you

'Til death do us part  
You were unholy right from the start  
Its a nice night for a black wedding  
Its a nice night for a black wedding  
Nice night for a black wedding  
Nice night for a black wedding  
Nice night for a black wedding  
Nice night for a black wedding  
Nice night for a  
Black wedding  
C'mon  
I would have loved you for a thousand years  
I would have died for you  
I would have sacrificed it all my dear  
I would have bled for you  
'Til death do us part  
You were unholy right from the start  
Its a nice night for a black wedding  
Its a nice night for a black wedding  
Nice night for a black wedding  
Nice night for a black wedding  
Nice night for a black wedding  
Nice night for a black wedding
