

# I just Know – Jacob Lee

Teach my lungs to breath underwater,  
Teach my heart to beat without her,  
I taught her, I taught her,  
Guide my feet towards the alter,  
Close my hands & wait for an answer,  
I caught her, I caught her  
Keep my secrets close, our hearts aligned,  
I see darkness where you see light,  
Emotions fold, our blood runs dry,  
I see a future inside your eyes,  
We're fading out again  
We're fading out again  
She said  
The world isn't big enough  
To live it on your own,  
I see fire in your eyes  
& I feel fire in my soul,  
You're gonna make it baby I just know  
Keep it in your heart,  
It's buried deep within your bones,  
Don't you come home,  
Or I will never let you go,  
You're gonna make it baby I just know  
Keep my secrets close, our hearts aligned,  
I see darkness where you see light,  
Emotions fold, our blood runs dry,  
I see a future inside your eyes,  
We're fading out again  
We're fading out again  
She said  
The world isn't big enough  
To live it on your own  
I see fire in your eyes  
& I feel fire in my soul  
You're gonna make it baby I just know  
Keep it in your heart,

It's buried deep within your bones,  
Don't you come home,  
Or I will never let you go,  
You're gonna make it baby I just know  
The world isn't big enough  
To live it on your own,  
I see fire in your eyes  
& I feel fire in my soul,  
You're gonna make it baby I just know  
Keep it in your heart,  
It's buried deep within your bones,  
Don't you come home,  
Or I will never let you go,  
You're gonna make it baby I just know  
Keep it in your heart,  
It's buried deep within your bones,  
Don't you come home,  
Or I will never let you go  
You're gonna make it baby I just know
