## Chew On My Heart – James Bay

Take your time I'll be right here I know no one could ever love me better Take all night You're the truth that Is breaking me and keeping me together Together I wanna be in your touch Sleep is so tough You're burning up my mind What would it feel like if you tore me apart? Come on chew on my heart Come on chew on my heart I wanna be in your touch Sleep is so tough You're burning up my mind What would it feel like if you tore me apart? Come on chew on my heart Come on chew on my heart I'm on fire I'm a hot mess I'm thinking things That I might start regretting So hear me out I need you now I'm spiraling I'm sinking down Look for me I'm sending up a message A message I wanna be in your touch Sleep is so tough You're burning up my mind What would it feel like if you tore me apart? Come on chew on my heart Come on chew on my heart I wanna be in your touch

Sleep is so tough You're burning up my mind What would it feel like if you tore me apart? Come on chew on my heart Come on chew on my heart Tear me apart I wanna be in your touch Sleep is so tough It's burning up my mind What would it feel like if you tore me apart? Come on chew on my heart Come on chew on my heart I wanna be in your touch Sleep is so tough You're burning up my mind What would it feel like if you tore me apart? Come on chew on my heart Come on chew on my heart
