

# Us – James Bay

Sometimes I'm beaten  
Sometimes I'm broke  
'Cause sometimes this city  
Is nothing but smoke  
Is there a secret?  
Is there a code?  
Can we make it better?  
'Cause I'm losing hope  
Tell me how to be in this world  
Tell me how to breathe in and feel no hurt  
Tell me how 'cause I believe in something  
I believe in us  
After the wreckage  
After the dust  
I still hear the howling,  
I still feel the rush  
Over the riots, above all the noise  
Through all the worry,  
I still hear your voice  
So, tell me how to be in this world  
Tell me how to breathe in and feel no hurt  
Tell me how 'cause I believe in something  
I believe in us  
Tell me when the light goes down  
That even in the dark we will find a way out  
Tell me now 'cause I believe in something  
I believe in us  
We used to be kids living just for kicks  
In cinema seats, learning how to kiss  
Running through streets that were  
Painted gold  
We never believed we'd grow up like this  
So tell me how to be in this world  
Tell me how to breathe in and feel no hurt  
Tell me how 'cause I believe in something  
I believe in us

Tell me when the light goes down  
That even in the dark we can find a way out  
Tell me now 'cause I believe in something  
I believe in us  
I believe in something  
And I believe in us
